	Claims		NO

2. Citations and explanations (Rule 70.7)

Reference is made to the following document:

D: EP 658883 A2

1) The invention, as in Claims 1, 3-10, 12-14, 16 and 17 is not considered to be novel. The present invention relates to a display apparatus whose signal processing unit is separated and in which the signal transfer through the driving signal connector can be achieved by a TMDS method or an LVDS method.

Generally, a TMDS method or an LVDS method is used between a host module and a display module. Therefore, the said signal processing unit is recognized as an element included in a host module.

D discloses a video system which comprises a main body having a signal processing section; a signal recording/reproducing section and a coupling device; and a plurality of independent modules which are separably engaged with the main body through the use of the coupling device. The said modules include a camera module for providing a camera video signal to the signal processing section, a tuner module for providing a broadcast signal to the signal processing section, a computer interface module for providing a digital data signal to the signal processing section and a display module for displaying the output signal provided from the signal processing section, wherein the signal processing section includes a DSP(digital signal processor) connected to the system controller.

2) The invention, as in Claims 2, 11, 15, 18 and 19 is considered to involve an inventive step.

D, regarded as the closest prior art, discloses a video system.

In Claims 2, 11, 15, 18 and 19 of the present invention, the image display unit comprises: an image display part for displaying the image according to the inputted signal; an inverter for generating high voltage required for the image display part; and an inverter connector for supplying the image display part with the high voltage generated by the inverter. The difference is that in D, an inverter and an inverter connector are not disclosed.

3) The invention, as in Claims 1-19, is considered to be industrially applicable.

SEVIT CO., LTD et al

1. The applicant is hereby notified that International Preliminary Examining Authority transmits here with the international preliminary examination report and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.

4. REMINDER

The applicant must enter the national phase before each elected office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details in the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.
